About Oxfam

Oxfam is a global movement of people who are fighting inequality to beat poverty and injustice - now and for the long term. We advocate for just and fairer economies. We strive for gender justice and for the rights of women and girls in all their diversity. We fight for climate justice and create safe spaces that allow people to hold the powerful into account. Rooted in communities, we tackle the causes and consequences of disaster and conflict.

Oxfam’s European Union office in Brussels works to influence decision-makers in the EU institutions and EU countries to ensure that European policies affecting low and middle-income and crisis-hit countries have a positive impact on the lives and livelihoods of those in need. Read more.
